

## Way back

1. No looking back  
face the facts you said  
fait accompli (it's over)  
get out of my face  
I prayed

Remembering the old schoolyard  
cheek to cheek and heart to heart  
you and me so crazy  
really thrilled to bits

**Bridge:** We've been young and we've been free  
been having confidence in love and honesty

**Refrain:** Hey babe  
the simple things and time were on our side  
way back when love was on your mind  
was on your mind

2. Friday night we made the grade  
dressed to kill couldn't hardly wait  
in the early morning rain  
we've been searching for a place to stay  
the old oak gave us shelter then you took my breath away

**Bridge:** We've been young and we've been free

**Refrain:** Hey babe

## Childhood dreams

1. You'd promised me  
And I agreed  
that we'll once meet by an appletree  
But now it seems  
that childhood dreams  
are like a game cause we are not the same

**Bridge:** I know  
you know  
there's no longer a burning flame

**Refrain:** Spring is leaving summer comes  
I never wanna say good bye  
but maybe baby that's alright  
summer dies autumn comes  
I never wanna say good bye  
but maybe baby that's alright

I realized  
we could'nt take the way to paradise  
Good bye my love  
Of childhood days

We won't forget our lovely place

glittering like a diamond and having fun

joy and rapture in one night spent

**Refrain:** She never ever let him go

gimme a piece of your mind  
I've got to pay the price  
Gonna hold on to what we've got  
gonna hold on never stop

every day's a new day of the rest of our life  
the things we do for love  
the things we do for love  
the things we do for love

pay my dues  
just have a heart  
I changed my tune  
I'll keep in mind  
you're what I need  
two of a kind  
will sow the seed  
gimme a piece of your mind  
I've got to pay the price

gonna hold on never stop

and is
